JIVA XT-5315/5515

In today's retail and hospitality market, POS terminal is no longer just a cold and hard business tool. It is a part of the store decoration, a part of the store image. Each curve and detail of the POS terminal should add something to the overall mood of the store, to lift the shopping experience of the customers.

With the true-flat PCAP touch screen supporting 10 points multi-touch, beautifully sculptured slim body, sexily curved base stand, Posiflex JIVA XT-5315/5515 looks right at any elegantly decorated store. And more than just good looks, Posiflex JIVA XT-5315 is powerful enough to handle any task imaginable that comes its way.

Looks

Slimmer and sexier than ever, XT Series is a sharp departure from the traditionally more conservative Posiflex terminal design. Every curves and details are carefully thought out to make XT Series one of the most visually desirable terminals in the market.

Flexibility

XT series comes with the selection of two foldable bases, the curvy slim GEN7E Base and the larger but practical GEN8E Base.

The new foldable base allows XT Series to be configured into different configurations. "Flat Folded Mode" to save the shipping package volume. "Low Profile Mode" to allow greater interaction between cashier and the customers; and the traditional "Full Extended Mode". All this can be achieved with a simple pull of the hidden lever. This one terminal/multi-configurations concept provides unmatched flexibility to store owners and system integrators alike.

Low Profile Mode

Flat Folded Mode

XT-5315/5515 offers a wide range of performance options from Intel Celeron to Intel Core i7 that is powerful enough to process anything throw at it without even breaking a sweat.

Fan-free Design

Fan-free architecture of XT-5315/5515 allows it to run on harsh environments, such as greasy kitchen, without ever worrying about the fan maintenance. It also allows the machine to run quietly, which is ideally suited for the high-end boutique stores or hospital environment.

GEN8E Base

Optional GEN8E Base that integrates internal power adaptor and Powered USB port into the base stand, which allows for clutter free counter.
