J2 615

Integrated Touch Terminal

J2

Key Features

> 15" narrow border PCAP touchscreen
> Ultra slim & Fanless
> Aesthetic metallic design
> 350° swivel & ergonomic design
> MSR / iButton / Fingerprint reader / NFC reader / 2D scanner / 2nd display / Customer display available

Benefits

> Ultra-slim
> Swivel and tilt monitor
> Windows or Android compatible
> Modular peripherals
> Multiple mounting options

J2 615 - Ultra-slim Swivel POS

Stylish - Compact - Versatile

The J2 615 provides retail and hospitality businesses with a stylish, modern integrated touch terminal solution.

It's slimline design is created by separating the CPU from the monitor, allowing for a more compact monitor head.

The CPU is located in the base of the terminal and in doing so expands mounting options. Place the J2 615 on a desktop or mount the monitor to a desk with the CPU base under the counter for a cable free look.

The swivel monitor base allows for a full 350° rotation making the J2 615 the perfect POS choice where customer interaction on screen may be required or access to the terminal from both sides of a counter is needed.

A broad range of processors are available to suit your power needs from Qualcomm 450 to Intel i3-7020U. 8Gb of RAM comes standard with all J2 615 terminals.

Ports are aplenty with 7 x USB ports, 2 x powered Serial ports, cash drawer port and 2 x display ports.

Choose from a range of optional peripherals including MSR, fingerprint reader, NFC, iButton, barcode scanner, customer display, 2nd display and powered USB box.

Supported operating systems include Android 9.0, Windows 10 IoT and Linux.
