OKI Printing Solutions has pioneered the integration of digital LED technology in printers for over 20 years, delivering High Definition printing for more accurate and striking documents. By continuously developing digital LED technology over two decades, OKI produces some of the most compact and reliable printers available. These printers have the added benefit of improved energy efficiencies, to help lower your print costs as well as your carbon footprint. OKI LED technology, printing for now and for the future.

\*3 Year Warranty  
Register your product within 30 days of purchase to be eligible. For further information please visit: <http://warranty.oki.com.au>  
Without registration, the standard Australian 1 year warranty applies.

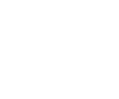

Considering the Environment  
As part of the OKI Group's Charter of Corporate Conduct, OKI Printing Solutions continually reviews its efforts to provide environmentally sound solutions to its customers:  
OKI Printing Solutions' Green Leaf symbol, found on all products and packaging, represents our total commitment to collection, recycling and environmental processes.

Energy Star  
Our printers and MFPs have earned the Energy Star by helping to eliminate energy waste through particularly energy-efficient designs. They use less energy to perform regular tasks. When not in use, they automatically enter a powersave mode and product features such as, duplex printing, further reduce the wasting of energy and paper resources.

CarbonZero Manufacturing Facilities  
OKI Printing Solutions' three main production facilities, located in Ayutthaya (Thailand), Shenzhen (China) and Fukushima (Japan), which manufacture printers and MFPs for the company's European and broader global markets have been made "CarbonZero" in a bid to slow down global climate change.

High Definition Color  
High Definition Color is OKI Printing Solutions' own unique set of market defining hardware and software technologies. Together, these components deliver unsurpassed colour printing simply, intelligently, and with perfect results.

OKI Managed Print

Managed print can potentially lower printing costs with a view to better efficiency of the overall print fleet and process.

Talk with us about OKI Managed Print options to protect your business for the future and drive operational inefficiencies out of your business

Look What You Can Do!

There is so much you can do on an OKI that we have written a marketing strategy paper on the subject. We call it Look What You Can Do.

This includes the likes of in-house printed banners, posters, leaflets, brochures, business cards, compliment slips; all of which can be used to promote your brand or company to new and existing customers.

Not only that but printed on a wide variety of media; unique to our superior media handling capabilities.

Contact us for a copy of Look What You Can Do and get more out of your OKI printer or MFP.
